CHAIRMAN'S MESSAGE

Greetings fellow RRPT's! The National Registry of Radiation Protection Technologists (**NRPT**) continues to grow and after the February 2019 exam stands at 5,637 registrants strong. This is my first year as Chairman and I am very honored and privileged to work with all the Board and Panel members who work very hard to represent you and make the Registry the best it possibly can be.

This handbook is provided as a tool for members to access information relevant to your **NRPT** membership. In this handbook, you will find:

- a listing of registered practitioner, supporter and retired members,
- our corporate sponsors,
- award recipients,
- members of the **NRPT** organization, and
- the Bylaws.

For membership contact information and to view the membership handbook on-line, please visit our website at www.NRPT.org. The membership handbook is a communication tool that can be used to network; research products and services provided by our corporate sponsors or to just look up an old friend. I hope that you find this handbook to be a useful tool and good reference.

The Registry belongs to you and I encourage each one of you to be involved as much as you can. Take a less experienced person and become a mentor to them. Get them interested in taking the exam, share your experience while helping them develop a plan to prepare for the exam and celebrate with them when they pass the exam. If you are interested in attending a meeting to see how the business of our Registry is conducted or would like to become more involved with the Board or Panel, please contact me or another board member as all are welcome. If you have any questions, comments or suggestions on how the Registry can better serve the registrants, please feel free to contact any of us at any time.

Best Regards,

A handwritten signature in blue ink that reads "Rick Rasmussen". The signature is written in a cursive, flowing style.

Rick Rasmussen
NRPT, Chairman of the Board

GENERAL INFORMATION

OBJECTIVE

The objective of the Registry is to encourage and promote the education and training of Radiation Protection Technologists and, by doing so, promote and advance the science of Health Physics.

MEMBERSHIP

Registered Practitioners are persons who have satisfied their registration maintenance requirements or who have not yet come to the conclusion of their first cycle. Practitioners actively support the **NRRPT** by paying an annual sustaining fee.

Registered Supporters are members that pay annual dues but do not maintain registration requirements; supporters are also Fellow, Emeritus and/or Retired members.

Membership Handbook - A publication of the Registry is available to practitioner and supporting members each year. Members are requested to keep the Executive Secretary informed regarding address changes.

REGISTRATION MAINTENANCE PROGRAM

The **NRRT** Registration Maintenance Program is designed to help assure that Registered Radiation Protection Technologists (RRPTs) continue to maintain their professional qualification. The program requires RRPTs to participate in professional development activities after their initial registration, and it monitors those activities on a periodic basis. Meeting the requirements of the program is mandatory to maintain active registration. In addition, the RRPT must maintain membership in the Registry for the entire maintenance cycle.

The Registration Maintenance Program began January 1, 1999 and requires 20 points to be earned in each five-year cycle. The cycle begins and ends on a calendar year basis, i.e., begins January 1 of the first year of the cycle and ends December 31 of the last year of the cycle. All points must be earned within the cycle to which they apply.

For RRPTs registered on or before January 1, 1999, the first cycle will begin on that date. The first cycle for those registered after January 1, 1999, will begin on January 1 of the year following registration.

If you have comments or questions please contact Mark Bayless, Continuing Education Committee Chairman at mbayless@lanl.gov.

COLLEGE CREDITS

The American Council on Education's College Credit Recommendation Service (ACE CREDIT) has evaluated and recommended college credit for 1 of the **NRRT** courses. The American Council on Education, the major coordinating body for all the nation's higher education institutions, seeks to provide leadership and a unifying voice on key higher education issues and to influence public policy through advocacy, research, and program initiatives.

ACE CREDIT connects workplace learning with colleges and universities by helping adults gain access to academic credit at colleges and universities for formal courses and examinations taken in the workplace or other settings outside traditional higher education.

For more than 30 years, colleges and universities have trusted ACE CREDIT to provide reliable course equivalency information to facilitate their decisions to award academic credit. For more information, visit the ACE CREDIT website <http://www.acenet.edu/acecredit>.
